

nVenia ARPAC Brand 1085SS Model and Blade Replacement/Service Discontinuation

March 18, 2022

As part of our ongoing process to review our product portfolio, we have decided to discontinue the manufacture of the ARPAC Brand 1085SS Model High Speed Food Slicer. This change is effective as of the date of this communication. We will continue to honor existing orders and as has always been our policy, we will continue to support existing equipment with repair parts and service to the extent possible, for as long as is practicable.

With respect to blade sharpening or replacement for this equipment, we will also discontinue that service effective immediately. Due to declining sales and the specialist nature of the process and equipment involved, it is no longer feasible for us to continue.

We appreciate your ongoing business and understanding as we undergo this transition.

If you have any questions regarding this product notification or other questions regarding our Product End of Life Policy, please contact your SupportPro representative at 847-777-8776.
