

FISCHBEIN BRAND B5000 MODEL

Band Sealer

Our FISCHBEIN Brand B5000 continuous band sealer is designed for high production industrial bagging operations closing heavy weight polyethylene and polypropylene gusseted bags, pillow bags, and pouches at up to 100 linear feet per minute. A band sealer is ideal for producing a high quality, aesthetically pleasing bag top seal. This low-maintenance band sealer features 5 heater banks in two sections that can be selectively enabled and disabled. It deploys a removable sealing section for easy maintenance and cleaning access, quick belt replacement design, user-friendly controls with easy to read digital temperature display, an adjustable height pedestal, and NEMA 12 rated electrics.
