

Poly-Thru-Paper

The Fischbein Model PTP 300™ Poly-Thru-Paper sealer is a continuous heat sealer designed to seal polyethylene and foil inner liners used in flat or gusseted multi-wall paper bags at speeds up to 60 linear feet per minute. The patented breakaway design eliminates costly downtime caused by bag jams while allowing easy cleaning and service of the hot air manifold and bag folder.

PTP 300

FEATURES

- **Bag Types:** Multi-wall paper bags with a heat-sealable polyethylene or foil inner liner. Open mouth bags sealed with PTP closure still require a primary, external closure
NOTE: Open mouth bags sealed with a PTP closure still require a primary external type of closure
- **Breakaway Design Low Maintenance:** The patented breakaway design eliminates costly downtime caused by bag jams while allowing easy cleaning and service of the hot-air manifold and bag folder.
- **User Friendly Controls:** Safe and easy to use control panel with digital temperature display, key pad for variable speed control, and dual emergency stop buttons.
- **Standard:** Over-temperature sensor auto shutdown. Motorized adjustable seal height to reduce change-over time.

OPTIONS

- Extended infeed for automation applications
- Additional motor starter and contactor for conveyor
- CR Plus 2 part corrosion resistant powder coat finish
- Left to right operation
- 575 VACI

SPECIFICATIONS

- Dimensions: L 78 in (198 cm), D 35 in (89 cm), H 88 in (224 cm)
- Speed: Up to 60 linear feet per minute
- Electric (NEMA 12): 230/380/460V-3PH-60Hz, 24 VAC
- Air: 10 cfm @ 80-100 PSI

BAGS

- Bag Types: Multi-wall paper pillow style gusseted open mouth bags with heat sealable inner liner
- Gussets: Any size including flat bags
- Free Bag Top: Minimum 6 in (15.2 cm)
